Self-Directed Transition Planning

A NOTE ABOUT THIS TOOL BEFORE YOU BEGIN:

This planning tool was created to help students and their support teams come together to talk and think about employment goals. The following 7 pages can serve as a guide to teams and will work best when the information compiled is a true reflection of the student's experiences, thoughts, and opinions. Teamwork in this process by a group of people who know the student well is important. This tool is not intended to be a form for one time completion, rather it is designed to be an ongoing guide for teams to use as students move through transition, build life skills, and engage in educational and work experiences in preparation for adulthood.

There is a notes section on the back of this form for additional information and planning purposes.
