Conduct qualitative and quantitative chemical analyses or chemical experiments in laboratories for quality or process control or to develop new products.
Inspect and investigate sources of pollution to protect the public and environment and ensure conformance with Federal, State, and local regulations and standards.
Design, plan, or perform engineering duties in the prevention, control, and remediation of environmental health hazards utilizing various engineering disciplines.
Apply theory and principles of environmental engineering to modify, test, and operate equipment and devices used in the prevention, control, and remediation of environmental health hazards.
Performs laboratory and field tests to monitor the environment and investigate sources of pollution, including those that affect health. Under direction of supervisor.
Teach courses in environmental science.
Conduct research or perform investigation for the purpose of identifying, abating, or eliminating sources of pollutants or hazards that affect either the environment or human health.
Identify, remove, pack, transport, or dispose of hazardous materials, including asbestos, lead-based paint, waste oil, fuel, transmission fluid, radioactive materials, and other hazardous substances.
Manage operations at hydroelectric power generation facilities. Maintain and monitor hydroelectric plant equipment for efficient and safe plant operation.
Evaluate materials and develop machinery and processes to manufacture materials for use in products that must meet specialized design and performance requirements.
Research and study the structures and chemical properties of various natural and manmade materials, including metals, alloys, rubber, ceramics, semiconductors, and polymers.
Direct daily operations, maintenance, or repair of landfill gas projects, including maintenance of daily logs, determination of service priorities, and compliance with regulations.
Review, evaluate, and analyze work environments and design programs and procedures to control, eliminate, and prevent disease or injury caused by chemical, physical, or biological hazards.
Collect data on work environments for analysis by occupational health and safety specialists. Implement and conduct evaluation of programs designed to control, eliminate, and prevent disease or injury.
Spray or release chemical solutions or toxic gases and set traps to kill pests and vermin, such as mice, termites, and roaches, that infest buildings and surrounding areas.
All physical scientists not listed separately.
Prepare and sort materials or products for recycling. Identify and remove hazardous substances. Dismantle components of products such as appliances, electronics, and other household items.
Supervise curbside and drop-off recycling programs for municipal governments or private firms.
Collect and dump refuse or recyclable materials from containers into truck. May drive truck.
Clean and repair septic tanks, sewer lines, or drains. May patch walls and partitions of tank, replace damaged drain tile, or repair breaks in underground pipes.
Operate or control an entire process or system of machines, often through the use of control boards, to transfer or treat water or liquid waste.
Design or implement programs and strategies related to water resource issues such as supply, quality, and regulatory compliance issues.
Work with agricultural scientists in food, fiber, and animal research, production, and processing; assist with animal breeding and nutrition work; under supervision.
Apply knowledge of engineering technology and biological science to agricultural problems concerned with power and machinery, electrification, structural design, and other areas.
Inspect agricultural commodities, processing equipment, and facilities, and fish and logging operations, to ensure compliance with regulations and laws governing the industry.

Conduct research in the genetics, nutrition, reproduction, growth, and development of domestic farm animals.
Study the chemical composition and physical principles of living cells and organisms, their electrical and mechanical energy, and related phenomena. May
Cut, trim, or prepare consumer-sized portions of meat for use or sale in retail establishments.
Design chemical plant equipment and devise processes for manufacturing chemicals and products, such as gasoline, synthetic rubber, plastics, detergents
Conduct chemical and physical laboratory tests to assist scientists in making qualitative and quantitative analyses of solids, liquids, and gaseous materials
Conduct qualitative and quantitative chemical analyses or chemical experiments in laboratories for quality or process control or to develop new products

Grade logs or estimate the marketable content or value of logs or pulpwood in sorting yards, millpond, log deck, or similar locations. Inspect logs for defects.
Drive logging tractor or wheeled vehicle equipped with one or more accessories, such as bulldozer blade, frontal shear, grapple, logging arch, cable winch.
All logging workers not listed separately.
Operate machinery--such as longwall shears, plows, and cutting machines--to cut or channel along the face or seams of coal mines, stone quarries, or other sites.
Determine the location and plan the extraction of coal, metallic ores, nonmetallic minerals, and building materials, such as stone and gravel. Work involves heavy machinery.
All mining machine operators not listed separately.
Plan, develop, and conduct programs to inform public of historical, natural, and scientific features of national, state, or local park.
Control the operation of petroleum refining or processing units. May specialize in controlling manifold and pumping systems, gauging or testing oil in storage tanks.
Apply geospatial technologies, including geographic information systems (GIS) and Global Positioning System (GPS), to agricultural production and management.
Tend, control, or operate power-driven, stationary, or portable pumps and manifold systems to transfer gases, oil, other liquids, slurries, or powdered materials.
Separate blocks of rough dimension stone from quarry mass using jackhammer and wedges.
Operate machinery to install roof support bolts in underground mine.
Set up or operate a variety of drills to remove petroleum products from the earth and to find and remove core samples for testing during oil and gas exploration.
Assemble or repair oil field equipment using hand and power tools. Perform other tasks as needed.
Operate equipment to increase oil flow from producing wells or to remove stuck pipe, casing, tools, or other obstructions from drilling wells. May also perform wellbore cleanouts.
Design or conduct surveys. May supervise interviewers who conduct the survey in person or over the telephone. May present survey results to client.
Perform surveying and mapping duties, usually under the direction of a surveyor, cartographer, or photogrammetrist to obtain data used for construction or planning.
Adjust and operate surveying instruments, such as the theodolite and electronic distance-measuring equipment, and compile notes, make sketches and elevations.
Make exact measurements and determine property boundaries. Provide data relevant to the shape, contour, gravitation, location, elevation, or dimensions of land.
Operate power pumps and auxiliary equipment to produce flow of oil or gas from wells in oil field.
Manage wind field operations, including personnel, maintenance activities, financial activities, and planning.
Lead or manage the development and evaluation of potential wind energy business opportunities, including environmental studies, permitting, and proposal writing.
Set up and maintain laboratory equipment and collect samples from crops or animals. Prepare specimens and record data to assist scientist in biology or medicine.
On a paid basis, manage farms, ranches, aquacultural operations, greenhouses, nurseries, timber tracts, cotton gins, packing houses, or other agricultural operations.
Manually plant, cultivate, and harvest vegetables, fruits, nuts, horticultural specialties, and field crops. Use hand tools, such as shovels, trowels, hoes, tampers, and rakes.
Directly supervise and coordinate activities of agricultural crop or horticultural workers.
All grounds maintenance workers not listed separately.
Plan and design land areas for such projects as parks and other recreational facilities, airports, highways, hospitals, schools, land subdivisions, and commercial developments.
Landscape or maintain grounds of property using hand or power tools or equipment. Workers typically perform a variety of tasks, which may include any of the following: mow lawns, trim shrubs, plant trees, and water lawns.
Plan, organize, direct, control, and coordinate activities of workers engaged in propagating, cultivating, and harvesting horticultural specialties, such as trees, shrubs, and flowers.
Work in nursery facilities or at customer location planting, cultivating, harvesting, and transplanting trees, shrubs, or plants.
Mix or apply pesticides, herbicides, fungicides, or insecticides through sprays, dusts, vapors, soil incorporation or chemical application on trees, shrubs, lawns, and gardens.
All plant and system operators not listed separately.
Conduct research in breeding, physiology, production, yield, and management of crops and agricultural plants, their growth in soils, and control of pests; conduct research in soil science, plant nutrition, and plant genetics.

Plan and develop coordinated practices for soil erosion control, soil and water conservation, and sound land use.
Cut away dead or excess branches from trees or shrubs to maintain right-of-way for roads, sidewalks, or utilities, or to improve appearance, health, and value.
Drive and control farm equipment to till soil and to plant, cultivate, and harvest crops. May perform tasks, such as crop baling or hay bucking. May operate tractors, combines, and other farm machinery.
Set up and maintain laboratory equipment and collect samples from crops or animals. Prepare specimens and record data to assist scientist in biology or related fields.
Repair, maintain, or install electric motors, wiring, or switches.
Research, design, develop, and test electronic components and systems for commercial, industrial, military, or scientific use utilizing knowledge of electronics and computer science.
Lay out, build, test, troubleshoot, repair, and modify developmental and production electronic components, parts, equipment, and systems, such as computers, printers, and other office equipment.
Install, diagnose, or repair communications, sound, security, or navigation equipment in motor vehicles.
All engineers not listed separately.
All engineering technicians, except drafters, not listed separately.
Diagnose, adjust, repair, or overhaul farm machinery and vehicles, such as tractors, harvesters, dairy equipment, and irrigation systems.
Set up and operate a variety of machine tools to produce precision parts and instruments. Includes precision instrument makers who fabricate, modify, or repair precision instruments.
Diagnose, adjust, repair, or overhaul mobile mechanical, hydraulic, and pneumatic equipment, such as cranes, bulldozers, graders, and conveyors, used in construction.
Diagnose, adjust, repair, or overhaul small engines used to power lawn mowers, chain saws, and related equipment.
Use hand-welding, flame-cutting, hand soldering, or brazing equipment to weld or join metal components or to fill holes, indentations, or seams of fabricated metal.
Set up, operate, or tend welding, soldering, or brazing machines or robots that weld, braze, solder, or heat treat metal products, components, or assemblies.
Lay and bind building materials, such as brick, structural tile, concrete block, cinder block, glass block, and terra-cotta block, with mortar and other substances.
Cut, shape, and assemble wooden articles or set up and operate a variety of woodworking machines, such as power saws, jointers, and mortisers to surface and finish wood.
Construct, erect, install, or repair structures and fixtures made of wood, such as concrete forms; building frameworks, including partitions, joists, studding, and roof trusses.
Lay and install carpet from rolls or blocks on floors. Install padding and trim flooring materials.
Smooth and finish surfaces of poured concrete, such as floors, walks, sidewalks, roads, or curbs using a variety of hand and power tools. Align forms for sidewalks, curbs, and other concrete structures.
All communications equipment operators not listed separately.
Inspect structures using engineering skills to determine structural soundness and compliance with specifications, building codes, and other regulations. Includes structural inspectors.
All construction and related workers not listed separately.
Construct, erect, install, and repair structures and fixtures of wood, plywood, and wallboard, using carpenter's hand tools and power tools.
Perform tasks involving physical labor at building, highway, and heavy construction projects, tunnel and shaft excavations, and demolition sites. May operate heavy machinery.
Plan, direct, coordinate, or budget, usually through subordinate supervisory personnel, activities concerned with the construction and maintenance of structures, roads, highways, bridges, and other heavy construction.
Control or tend conveyors or conveyor systems that move materials or products to and from stockpiles, processing stations, departments, or vehicles. May operate cranes, hoists, and other lifting equipment.
Operate dredge to remove sand, gravel, or other materials from lakes, rivers, or streams; and to excavate and maintain navigable channels in waterways.
Apply plasterboard or other wallboard to ceilings or interior walls of buildings. Apply or mount acoustical tiles or blocks, strips, or sheets of shock-absorbent material.
Operate a variety of drills--such as rotary, churn, and pneumatic--to tap sub-surface water and salt deposits, to remove core samples during mineral exploration, or to drill holes for other purposes.
Install, maintain, and repair electrical wiring, equipment, and fixtures. Ensure that work is in accordance with relevant codes. May install or service street lighting.
Repair, adjust, or install audio or television receivers, stereo systems, camcorders, video systems, or other electronic home entertainment equipment.
Operate or tend machinery equipped with scoops, shovels, or buckets, to excavate and load loose materials.

Place and detonate explosives to demolish structures or to loosen, remove, or displace earth, rock, or other materials. May perform specialized handling, All extraction workers not listed separately.
Directly supervise and coordinate activities of construction or extraction workers.
Supervise and coordinate the activities of helpers, laborers, or material movers.
Supervise and coordinate the activities of mechanics, installers, and repairers.
Apply blocks, strips, or sheets of shock-absorbing, sound-deadening, or decorative coverings to floors.
Scrape and sand wooden floors to smooth surfaces using floor scraper and floor sanding machine, and apply coats of finish.
Install glass in windows, skylights, store fronts, and display cases, or on surfaces, such as building fronts, interior walls, ceilings, and tabletops.
Install, service, and repair heating and air conditioning systems in residences and commercial establishments.
Install or repair heating, central air conditioning, or refrigeration systems, including oil burners, hot-air furnaces, and heating stoves.
All construction trades helpers not listed separately.
Help brickmasons, blockmasons, stonemasons, or tile and marble setters by performing duties of lesser skill. Duties include using, supplying or holding materials or tools, and cleaning work area and equipment.
Help carpenters by performing duties of lesser skill. Duties include using, supplying or holding materials or tools, and cleaning work area and equipment.
Help electricians by performing duties of lesser skill. Duties include using, supplying or holding materials or tools, and cleaning work area and equipment.
Help installation, maintenance, and repair workers in maintenance, parts replacement, and repair of vehicles, industrial machinery, and electrical and electronic equipment.
Help painters, paperhangers, plasterers, or stucco masons by performing duties of lesser skill. Duties include using, supplying or holding materials or tools or equipment.
Help plumbers, pipefitters, steamfitters, or pipelayers by performing duties of lesser skill. Duties include using, supplying or holding materials or tools, and cleaning work area and equipment.
Help roofers by performing duties of lesser skill. Duties include using, supplying or holding materials or tools, and cleaning work area and equipment.
Operate or tend hoists or winches to lift and pull loads using power-operated cable equipment.
Line and cover structures with insulating materials. May work with batt, roll, or blown insulation materials.
Apply insulating materials to pipes or ductwork, or other mechanical systems in order to help control and maintain temperature.
Move or install mobile homes or prefabricated buildings.
Operate one or several types of power construction equipment, such as motor graders, bulldozers, scrapers, compressors, pumps, derricks, shovels, tractors, and excavators.
Paint walls, equipment, buildings, bridges, and other structural surfaces, using brushes, rollers, and spray guns. May remove old paint to prepare surface for new paint.
Paint, coat, or decorate articles, such as furniture, glass, plateware, pottery, jewelry, cakes, toys, books, or leather.
Cover interior walls and ceilings of rooms with decorative wallpaper or fabric, or attach advertising posters on surfaces, such as walls and billboards. Duties include hanging wallpaper or fabric.
Operate equipment used for applying concrete, asphalt, or other materials to road beds, parking lots, or airport runways and taxiways, or equipment used for applying sealers to road surfaces.
Operate pile drivers mounted on skids, barges, crawler treads, or locomotive cranes to drive pilings for retaining walls, bulkheads, and foundations of structures.
Lay out, assemble, install, and maintain pipe systems, pipe supports, and related hydraulic and pneumatic equipment for steam, hot water, heating, cooling, and air conditioning systems.
Lay pipe for storm or sanitation sewers, drains, and water mains. Perform any combination of the following tasks: grade trenches or culverts, position pipe, and install pipe.
Apply interior or exterior plaster, cement, stucco, or similar materials. May also set ornamental plaster.
Assemble, install, and repair pipes, fittings, and fixtures of heating, water, and drainage systems, according to specifications and plumbing codes.
Assemble, install, alter, and repair pipelines or pipe systems that carry water, steam, air, or other liquids or gases. May install heating and cooling equipment.
Install and repair industrial and commercial refrigerating systems.

Position and secure steel bars or mesh in concrete forms in order to reinforce concrete. Use a variety of fasteners, rod-bending machines, blowtorches, and
Set up or repair rigging for construction projects, manufacturing plants, logging yards, ships and shipyards, or for the entertainment industry.
Cover roofs of structures with shingles, slate, asphalt, aluminum, wood, and related materials. May spray roofs, sidings, and walls with material to bind, seal,
Build rough wooden structures, such as concrete forms, scaffolds, tunnel, bridge, or sewer supports, billboard signs, and temporary frame shelters, according to
Set up, operate, or tend wood sawing machines. Includes head sawyers.
Install, program, maintain, and repair security and fire alarm wiring and equipment. Ensure that work is in accordance with relevant codes.
Lay out, cut, and paste segmental paving units. Includes installers of bedding and restraining materials for the paving units.
Fabricate, assemble, install, and repair sheet metal products and equipment, such as ducts, control boxes, drainpipes, and furnace casings. Work may involve
Install, inspect, test, maintain, or repair electric gate crossings, signals, signal equipment, track switches, section lines, or intercommunications systems with
Direct work crews installing residential or commercial solar photovoltaic or thermal systems.
Assemble, install, or maintain solar photovoltaic (PV) systems on roofs or other structures in compliance with site assessment and schematics. May include
Install or repair solar energy systems designed to collect, store, and circulate solar-heated water for residential, commercial or industrial use.
Build stone structures, such as piers, walls, and abutments. Lay walks, curbstones, or special types of masonry for vats, tanks, and floors.
Raise, place, and unite iron or steel girders, columns, and other structural members to form completed structures or structural frameworks. May erect metal
Seal joints between plasterboard or other wallboard to prepare wall surface for painting or papering.
Set-up, rearrange, or remove switching and dialing equipment used in central offices. Service or repair telephones and other communication equipment and
Apply a mixture of cement, sand, pigment, or marble chips to floors, stairways, and cabinet fixtures to fashion durable and decorative surfaces.
Apply hard tile, marble, and wood tile to walls, floors, ceilings, and roof decks.
Perform a variety of activities to weatherize homes and make them more energy efficient. Duties include repairing windows, insulating ducts, and performing

Maintain highways, municipal and rural roads, airport runways, and rights-of-way. Duties include patching broken or eroded pavement, repairing guard rails, and maintaining drainage systems.
Repair, adjust, or install all types of electric or gas household appliances, such as refrigerators, washers, dryers, and ovens.
Perform work involving the skills of two or more maintenance or craft occupations to keep machines, mechanical equipment, or the structure of an establishment in good operating condition.
Lubricate machinery, change parts, or perform other routine machinery maintenance.
Install, service, or repair opening and closing mechanisms of automatic doors and hydraulic door closers. Includes garage door mechanics.
Set up, operate, or tend milling or planing machines to mill, plane, shape, groove, or profile metal or plastic work pieces.
Install, dismantle, or move machinery and heavy equipment according to layout plans, blueprints, or other drawings.
Operate one or several types of power construction equipment, such as motor graders, bulldozers, scrapers, compressors, pumps, derricks, shovels, tractors, and loaders.
Formulate and apply mathematical modeling and other optimizing methods using a computer to develop and interpret information that assists management in making decisions.
Lay out, assemble, install, and maintain pipe systems, pipe supports, and related hydraulic and pneumatic equipment for steam, hot water, heating, cooling, and air conditioning.
Lay pipe for storm or sanitation sewers, drains, and water mains. Perform any combination of the following tasks: grade trenches or culverts, position pipe, and install pipe.
Assemble, install, and repair pipes, fittings, and fixtures of heating, water, and drainage systems, according to specifications and plumbing codes.
Assemble, install, alter, and repair pipelines or pipe systems that carry water, steam, air, or other liquids or gases. May install heating and cooling equipment.
Control, operate, or maintain machinery to generate electric power. Includes auxiliary equipment operators.
Install and repair industrial and commercial refrigerating systems.
Install, program, maintain, and repair security and fire alarm wiring and equipment. Ensure that work is in accordance with relevant codes.
Operate or maintain stationary engines, boilers, or other mechanical equipment to provide utilities for buildings or industrial processes. Operate equipment to generate steam, hot water, or air conditioning.
Set-up, rearrange, or remove switching and dialing equipment used in central offices. Service or repair telephones and other communication equipment and equipment used in central offices.
Inspect, diagnose, adjust, or repair wind turbines. Perform maintenance on wind turbine equipment including resolving electrical, mechanical, and hydraulic problems.
Set up or set up and operate audio and video equipment including microphones, sound speakers, video screens, projectors, video monitors, recording equipment, and other audio and video equipment.
Set up, operate, and maintain the electronic equipment used to transmit radio and television programs. Control audio equipment to regulate volume level and other sound effects.
Repair and adjust cameras and photographic equipment, including commercial video and motion picture camera equipment.

Operate television, video, or motion picture camera to photograph images or scenes for various purposes, such as TV broadcasts, advertising, video production, etc.
Monitor and control electronic computer and peripheral electronic data processing equipment to process business, scientific, engineering, and other data.
Create, modify, and test the code, forms, and script that allow computer applications to run. Work from specifications drawn up by software developers or programmers.
Interpret script, conduct rehearsals, and direct activities of cast and technical crew for stage, motion pictures, television, or radio programs.
Research, design, develop, and test electronic components and systems for commercial, industrial, military, or scientific use utilizing knowledge of electronics.
Lay out, build, test, troubleshoot, repair, and modify developmental and production electronic components, parts, equipment, and systems, such as computers, etc.

Control and monitor biomass plant activities and perform maintenance as needed.
Operate or tend cementing and gluing machines to join items for further processing or to form a completed product. Processes include joining veneer sheets.
Operate or tend equipment to control chemical changes or reactions in the processing of industrial or consumer products. Equipment used includes devulcanizers.
Control or operate an entire chemical process or system of machines.
Operate or tend machines to wash or clean products, such as barrels or kegs, glass items, tin plate, food, pulp, coal, plastic, or rubber, to remove impurities.
Set up, operate, or tend machines to coat or paint any of a wide variety of products including food, glassware, cloth, ceramics, metal, plastic, paper, or wood.
Wind wire coils used in electrical components, such as resistors and transformers, and in electrical equipment and instruments, such as field cores, bobbin winders.
Operate computer-controlled machines or robots to perform one or more machine functions on metal or plastic work pieces.
Set up, operate, or tend machines to crush, grind, or polish materials, such as coal, glass, grain, stone, food, or rubber.
Use hand tools or hand-held power tools to cut and trim a variety of manufactured items, such as carpet, fabric, stone, glass, or rubber.
Set up, operate, or tend machines that cut or slice materials, such as glass, stone, cork, rubber, tobacco, food, paper, or insulating material.
Set up, operate, or tend machines to saw, cut, shear, slit, punch, crimp, notch, bend, or straighten metal or plastic material.
Set up, operate, or tend drilling machines to drill, bore, ream, mill, or countersink metal or plastic work pieces.
Assemble or modify electrical or electronic equipment, such as computers, test equipment telemetering systems, electric motors, and batteries.
Assemble or modify electromechanical equipment or devices, such as servomechanisms, gyros, dynamometers, magnetic drums, tape drives, brakes, controls.
Construct, assemble, or rebuild machines, such as engines, turbines, and similar equipment used in such industries as construction, extraction, textiles, and transportation.
Set up, operate, or tend machines to extrude or draw thermoplastic or metal materials into tubes, rods, hoses, wire, bars, or structural shapes.
Set up, operate, or tend machines that extrude and form continuous filaments from synthetic materials, such as liquid polymer, rayon, and fiberglass.
Set up, operate, or tend machines, such as glass forming machines, plodder machines, and tuber machines, to shape and form products, such as glassware and tubes.
Draw and construct sets of precision master fabric patterns or layouts. May also mark and cut fabrics and apparel.
Laminate layers of fiberglass on molds to form boat decks and hulls, bodies for golf carts, automobiles, or other products.
Supervise and coordinate the activities of production and operating workers, such as inspectors, precision workers, machine setters and operators, assemblers, and packers.
Set up, operate, or tend forging machines to taper, shape, or form metal or plastic parts.
Make or form wax or sand cores or molds used in the production of metal castings in foundries.
Operate or tend heating equipment other than basic metal, plastic, or food processing equipment. Includes activities, such as annealing glass, drying lumber, and curing plastics.
Shape, finish, and refinish damaged, worn, or used furniture or new high-grade furniture to specified color or finish.
Fabricate, finish, or evaluate the quality of gems and diamonds used in jewelry or industrial tools.
Shape molten glass according to patterns.
Grind, sand, or polish, using hand tools or hand-held power tools, a variety of metal, wood, stone, clay, plastic, or glass objects.
Set up, operate, or tend grinding and related tools that remove excess material or burrs from surfaces, sharpen edges or corners, or buff, hone, or polish metal.
Set up, operate, or tend heating equipment, such as heat-treating furnaces, flame-hardening machines, induction machines, soaking pits, or vacuum equipment.
Help production workers by performing duties of lesser skill. Duties include supplying or holding materials or tools, and cleaning work area and equipment.
Monitor and control activities associated with hydropower generation. Operate plant equipment, such as turbines, pumps, valves, gates, fans, electric control systems.
Fabricate and repair jewelry articles. Make models or molds to create jewelry items.

Design, fabricate, adjust, repair, or appraise jewelry, gold, silver, other precious metals, or gems. Includes diamond polishers and gem cutters and persons
Set up, operate, or tend lathe and turning machines to turn, bore, thread, form, or face metal or plastic materials, such as wire, rod, or bar stock.
Lay out reference points and dimensions on metal or plastic stock or workpieces, such as sheets, plates, tubes, structural shapes, castings, or machine parts.
Feed materials into or remove materials from machines or equipment that is automatic or tended by other workers.
Set up and operate a variety of machine tools to produce precision parts and instruments. Includes precision instrument makers who fabricate, modify, or
Apply knowledge of manufacturing engineering systems and tools to set up, test, and adjust manufacturing machinery and equipment, using any combination
All metalworkers and plastic workers not listed separately.
Operate or tend furnaces, such as gas, oil, coal, electric-arc or electric induction, open-hearth, or oxygen furnaces, to melt and refine metal before casting
Monitor, operate, and maintain landfill gas collection system components and environmental monitoring and control systems.
Set up, operate, or tend milling or planing machines to mill, plane, shape, groove, or profile metal or plastic work pieces.
Set up, operate, or tend machines to mix or blend materials, such as chemicals, tobacco, liquids, color pigments, or explosive ingredients.
Set up and operate machines, such as lathes, milling and engraving machines, and jig borers to make working models of metal or plastic objects.
Construct full-size and scale wooden precision models of products. Includes wood jig builders and loft workers.
Mold, shape, form, cast, or carve products such as food products, figurines, tile, pipes, and candles consisting of clay, glass, plaster, concrete, stone, or wood
Perform a variety of duties such as mixing materials, assembling mold parts, filling molds, and stacking molds to mold and cast a wide range of products.
Set up, operate, or tend metal or plastic molding, casting, or coremaking machines to mold or cast metal or thermoplastic parts or products.
Set up, operate, or tend more than one type of cutting or forming machine tool or robot.
Repair percussion, stringed, reed, or wind instruments. May specialize in one area, such as piano tuning.
Control nuclear reactors.
Develop programs to control machining or processing of parts by automatic machine tools, equipment, or systems.
Operate or tend machines to prepare industrial or consumer products for storage or shipment. Includes cannery workers who pack food products.
Set up, operate, or tend paper goods machines that perform a variety of functions, such as converting, sawing, corrugating, banding, wrapping, boxing, stitching
Lay out, machine, fit, and assemble castings and parts to metal or plastic foundry patterns, core boxes, or match plates.
Plan, lay out, and construct wooden unit or sectional patterns used in forming sand molds for castings.
Set up, operate, or tend plating or coating machines to coat metal or plastic products with chromium, zinc, copper, cadmium, nickel, or other metal to produce
Operate production machines such as pug mill, jigger machine, or potter's wheel to process clay in manufacture of ceramic, pottery and stoneware products
Operate hand-controlled mechanisms to pour and regulate the flow of molten metal into molds to produce castings or ingots.
Coordinate, regulate, or distribute electricity or steam.
Cast, anneal, solder, hammer, or shape gold, silver, pewter or other metals to form jewelry or other metal items such as goblets or candlesticks.
All production workers not listed separately.
Coordinate and expedite the flow of work and materials within or between departments of an establishment according to production schedule. Duties include
Set up, operate, or tend machines to roll steel or plastic forming bends, beads, knurls, rolls, or plate or to flatten, temper, or reduce gauge of material.
Set up, operate, or tend wood sawing machines. Includes head sawyers.
Perform any or all of the following functions in the manufacture of electronic semiconductors: load semiconductor material into furnace; saw formed ingots

Sew, join, reinforce, or finish, usually with needle and thread, a variety of manufactured items. Includes weavers and stitchers.
Operate or tend sewing machines to join, reinforce, decorate, or perform related sewing operations in the manufacture of garment or nongarment products.
Operate or tend a variety of machines to join, decorate, reinforce, or finish shoes and shoe parts.
Braze or solder together components to assemble fabricated metal parts, using soldering iron, torch, or welding machine and flux.
Cut or carve stone according to diagrams and patterns.
Fabricate, lay out, position, align, and fit parts of structural metal products.
Work as part of a team having responsibility for assembling an entire product or component of a product. Team assemblers can perform all tasks conducted by individual assemblers.
Operate or tend machines to bleach, shrink, wash, dye, or finish textiles or synthetic or glass fibers.
Set up, operate, or tend machines that cut textiles.
Set up, operate, or tend machines that knit, loop, weave, or draw in textiles.
Set up, operate, or tend machines that wind or twist textiles; or draw out and combine sliver, such as wool, hemp, or synthetic fibers.
All textile, apparel, and furnishings workers not listed separately.
Perform precision assembling or adjusting, within narrow tolerances, of timing devices, such as watches, clocks, or chronometers.
Operate machines to build tires from rubber components.
Analyze specifications, lay out metal stock, set up and operate machine tools, and fit and assemble parts to make and repair dies, cutting tools, jigs, fixtures, and molds.
Perform precision smoothing, sharpening, polishing, or grinding of metal objects.
Make, repair, or replace upholstery for household furniture or transportation vehicles.
Use hand-welding or flame-cutting equipment to weld or join metal components or to fill holes, indentations, or seams of fabricated metal products.
Use hand-welding, flame-cutting, hand soldering, or brazing equipment to weld or join metal components or to fill holes, indentations, or seams of fabricated metal products.
Set up, operate, or tend welding, soldering, or brazing machines or robots that weld, braze, solder, or heat treat metal products, components, or assemblies.
Set up, operate, or tend woodworking machines, such as drill presses, lathes, shapers, routers, sanders, planers, and wood nailing machines.
Conduct chemical and physical laboratory tests to assist scientists in making qualitative and quantitative analyses of solids, liquids, and gaseous materials.
Construct, fit, maintain, or repair medical supportive devices, such as braces, artificial limbs, joints, arch supports, and other surgical and medical appliances.
Collect and test samples to monitor results of nuclear experiments and contamination of humans, facilities, and environment.
Assist scientists in both laboratory and production activities by performing technical tasks involving nuclear physics, primarily in operation, maintenance, and repair.
Develop programs to control machining or processing of parts by automatic machine tools, equipment, or systems.
Cut, grind, and polish eyeglasses, contact lenses, or other precision optical elements. Assemble and mount lenses into frames or process other optical elements.
Plan, direct, or coordinate quality assurance programs. Formulate quality control policies and control quality of laboratory and production efforts.
Plan and direct advertising policies and programs or produce collateral materials, such as posters, contests, coupons, or give-aways, to create extra interest in products.
Appraise real property to determine its fair value. May assess taxes in accordance with prescribed schedules.
Appraise real property to determine its value for purchase, sales, investment, mortgage, or loan purposes.
Appraise real and personal property to determine its fair value. May assess taxes in accordance with prescribed schedules.
Teach courses in business administration and management, such as accounting, finance, human resources, labor relations, marketing, and operations research.
Teach courses in communications, such as organizational communications, public relations, radio/television broadcasting, and journalism.

Interact with customers to provide information in response to inquiries about products and services and to handle and resolve complaints.
Format typescript and graphic elements using computer software to produce publication-ready material.
Directly supervise and coordinate activities of sales workers other than retail sales workers. May perform duties, such as budgeting, accounting, and personnel management.
Research market conditions in local, regional, or national areas, or gather information to determine potential sales of a product or service, or create a marketing plan.
Determine the demand for products and services offered by a firm and its competitors and identify potential customers. Develop pricing strategies with the sales manager.
Set up and prepare material for printing presses.
Plan, direct, or coordinate selling, buying, leasing, or governance activities of commercial, industrial, or residential real estate properties.
Operate real estate office, or work for commercial real estate firm, overseeing real estate transactions. Other duties usually include selling real estate or real estate services.
Rent, buy, or sell property for clients. Perform duties, such as study property listings, interview prospective clients, accompany clients to property site, discuss property details, and prepare contracts.
All sales and related workers not listed separately.
Direct the actual distribution or movement of a product or service to the customer. Coordinate sales distribution by establishing sales territories, quotas, and sales objectives.
Sell goods for wholesalers or manufacturers to businesses or groups of individuals. Work requires substantial knowledge of items sold.
Design or conduct surveys. May supervise interviewers who conduct the survey in person or over the telephone. May present survey results to client.
Provide information by accessing alphabetical and geographical directories. Assist customers with special billing requests, such as charges to a third party.
Buy merchandise or commodities, other than farm products, for resale to consumers at the wholesale or retail level, including both durable and nondurable goods.
Plan, direct, or coordinate supportive services of an organization, such as recordkeeping, mail distribution, telephone operator/receptionist, and other office services.

Teach courses in drama, music, and the arts including fine and applied art, such as painting and sculpture, or design and crafts.
Appraise real and personal property to determine its fair value. May assess taxes in accordance with prescribed schedules.
Teach courses in business administration and management, such as accounting, finance, human resources, labor relations, marketing, and operations rese

Receive and disburse money in establishments other than financial institutions. Usually involves use of electronic scanners, cash registers, or related equipment.
Teach courses in communications, such as organizational communications, public relations, radio/television broadcasting, and journalism.
Receive orders for repairs, rentals, and services. May describe available options, compute cost, and accept payment.
Demonstrate merchandise and answer questions for the purpose of creating public interest in buying the product. May sell demonstrated merchandise.
Drive truck or other vehicle over established routes or within an established territory and sell goods, such as food products, including restaurant take-out.
Directly supervise sales workers in a retail establishment or department. Duties may include management functions, such as purchasing, budgeting, accounting, and inventory control.
Exchange coins and tokens for patrons' money. May issue payoffs and obtain customer's signature on receipt when winnings exceed the amount held in the machine.
Research market conditions in local, regional, or national areas, or gather information to determine potential sales of a product or service, or create a market.
Determine the demand for products and services offered by a firm and its competitors and identify potential customers. Develop pricing strategies with the firm.
Print and attach price tickets to articles of merchandise using one or several methods, such as marking price on tickets by hand or using ticket-printing machine.
Plan and erect commercial displays, such as those in windows and interiors of retail stores and at trade exhibitions.
Conduct retail activities of businesses operating exclusively online. May perform duties such as preparing business strategies, buying merchandise, managing inventory, and customer service.
Fill customers' mail and telephone orders from stored merchandise in accordance with specifications on sales slips or order forms. Duties include computing and packing orders.
Photograph persons, subjects, merchandise, or other commercial products. May develop negatives and produce finished prints.
Plan, direct, or coordinate selling, buying, leasing, or governance activities of commercial, industrial, or residential real estate properties.
Operate real estate office, or work for commercial real estate firm, overseeing real estate transactions. Other duties usually include selling real estate or renting property.
Rent, buy, or sell property for clients. Perform duties, such as study property listings, interview prospective clients, accompany clients to property site, disseminate information, and prepare contracts.
Sell merchandise, such as furniture, motor vehicles, appliances, or apparel in a retail establishment.
All sales and related workers not listed separately.
Direct the actual distribution or movement of a product or service to the customer. Coordinate sales distribution by establishing sales territories, quotas, and schedules.
All services sales representatives not listed separately.
Sell goods for wholesalers or manufacturers to businesses or groups of individuals. Work requires substantial knowledge of items sold.
Receive, store, and issue sales floor merchandise, materials, equipment, and other items from stockroom, warehouse, or storage yard to fill shelves, racks, and display cases.
Receive, store, and issue materials, equipment, and other items from stockroom, warehouse, or storage yard. Keep records and compile stock reports.
Receive, store, and issue sales floor merchandise. Stock shelves, racks, cases, bins, and tables with merchandise and arrange merchandise displays to attract customers.
Design or conduct surveys. May supervise interviewers who conduct the survey in person or over the telephone. May present survey results to client.
Buy merchandise or commodities, other than farm products, for resale to consumers at the wholesale or retail level, including both durable and nondurable goods.
Plan and direct advertising policies and programs or produce collateral materials, such as posters, contests, coupons, or give-aways, to create extra interest in a product.
Sell or solicit advertising, including graphic art, advertising space in publications, custom made signs, or TV and radio advertising time. May obtain leases for advertising space.
Appraise real property to determine its fair value. May assess taxes in accordance with prescribed schedules.
Appraise real property to determine its value for purchase, sales, investment, mortgage, or loan purposes.
Teach courses in drama, music, and the arts including fine and applied art, such as painting and sculpture, or design and crafts.
Appraise real and personal property to determine its fair value. May assess taxes in accordance with prescribed schedules.
Teach courses in business administration and management, such as accounting, finance, human resources, labor relations, marketing, and operations research.

Teach courses in communications, such as organizational communications, public relations, radio/television broadcasting, and journalism.
Sell goods or services door-to-door or on the street.
Design, cut, and arrange live, dried, or artificial flowers and foliage.
Research market conditions in local, regional, or national areas, or gather information to determine potential sales of a product or service, or create a market.
Determine the demand for products and services offered by a firm and its competitors and identify potential customers. Develop pricing strategies with the firm.
Plan and erect commercial displays, such as those in windows and interiors of retail stores and at trade exhibitions.
Model garments and other apparel to display clothing before prospective buyers at fashion shows, private showings, retail establishments, or photographs.
Photograph persons, subjects, merchandise, or other commercial products. May develop negatives and produce finished prints.
Plan, direct, or coordinate selling, buying, leasing, or governance activities of commercial, industrial, or residential real estate properties.
Operate real estate office, or work for commercial real estate firm, overseeing real estate transactions. Other duties usually include selling real estate or representing clients.
Rent, buy, or sell property for clients. Perform duties, such as study property listings, interview prospective clients, accompany clients to property site, discuss property, and prepare contracts.
Direct the actual distribution or movement of a product or service to the customer. Coordinate sales distribution by establishing sales territories, quotas, and schedules.
Sell goods for wholesalers or manufacturers to businesses or groups of individuals. Work requires substantial knowledge of items sold.
Sell goods for wholesalers or manufacturers where technical or scientific knowledge is required in such areas as biology, engineering, chemistry, and electrical.
Contact new or existing customers to determine their solar equipment needs, suggest systems or equipment, or estimate costs.
Design or conduct surveys. May supervise interviewers who conduct the survey in person or over the telephone. May present survey results to client.
Buy merchandise or commodities, other than farm products, for resale to consumers at the wholesale or retail level, including both durable and nondurable goods.
Perform a variety of engineering work in designing, constructing, and testing aircraft, missiles, and spacecraft. May conduct basic and applied research to develop new designs.
Operate, install, calibrate, and maintain integrated computer/communications systems consoles, simulators, and other data acquisition, test, and measurement equipment.
Apply knowledge of engineering technology and biological science to agricultural problems concerned with power and machinery, electrification, structural design, and other systems.
Develop new or improved designs for vehicle structural members, engines, transmissions and other vehicle systems, using computer-assisted design techniques.
Assist engineers in determining the practicality of proposed product design changes, and plan and carry out tests on experimental test devices and equipment.
Apply knowledge of biology, chemistry, and engineering to develop usable, tangible products. Solve problems related to materials, systems and processes.
Define, plan, or execute biofuels/biodiesel research programs that evaluate alternative feedstock and process technologies with near-term commercial potential.
Apply principles and methods of bioinformatics to assist scientists in areas such as pharmaceuticals, medical technology, biotechnology, computational biology, and genomics.
Assist biological and medical scientists in laboratories. Set up, operate, and maintain laboratory instruments and equipment, monitor experiments, make measurements, and record data.
Apply knowledge of engineering, biology, and biomechanical principles to the design, development, and evaluation of biological and health systems and products.
Design chemical plant equipment and devise processes for manufacturing chemicals and products, such as gasoline, synthetic rubber, plastics, detergents, and pharmaceuticals.
Conduct chemical and physical laboratory tests to assist scientists in making qualitative and quantitative analyses of solids, liquids, and gaseous materials.
Perform engineering duties in planning, designing, and overseeing construction and maintenance of building structures, and facilities, such as roads, railroads, and bridges.
Apply theory and principles of civil engineering in planning, designing, and overseeing construction and maintenance of structures and facilities under the direction of a professional engineer.
Research, design, develop, and test computer or computer-related equipment for commercial, industrial, military, or scientific use. May supervise the manufacturing of equipment.
Design and develop solutions to complex applications problems, system administration issues, or network concerns. Perform systems management and installation.
Apply electrical and electronic theory and related knowledge, usually under the direction of engineering staff, to design, build, repair, calibrate, and modify electrical and electronic equipment.

Design, develop, test, or supervise the manufacturing and installation of electrical equipment, components, or systems for commercial, industrial, military
Apply electrical theory and related knowledge to test and modify developmental or operational electrical machinery and electrical control equipment and
Apply engineering theory and technical skills to support electrical engineering activities such as process control, electrical power distribution, and instrum
Apply engineering theory and technical skills to support electromechanical engineering activities such as computer-based process control, instrumentatio
Operate, test, and maintain unmanned, automated, servo-mechanical, or electromechanical equipment. May operate unmanned submarines, aircraft, or

Design, evaluate, modify, and construct fuel cell components and systems for transportation, stationary, or portable applications.
Install, operate, and maintain integrated fuel cell systems in transportation, stationary, or portable applications.
Measure large areas of the Earth's surface using satellite observations, global navigation satellite systems (GNSS), light detection and ranging (LIDAR), or r
Assist scientists, technologists, and related professionals in building, maintaining, modifying, and using geographic information systems (GIS) databases. M
Research and develop geospatial technologies. May produce databases, perform applications programming or coordinate projects. May specialize in area
Manage operations at geothermal power generation facilities. Maintain and monitor geothermal plant equipment for efficient and safe plant operations.
All health technologists and technicians not listed separately.
Design objects, facilities, and environments to optimize human well-being and overall system performance, applying theory, principles, and data regardin
Manage operations at hydroelectric power generation facilities. Maintain and monitor hydroelectric plant equipment for efficient and safe plant operatio
Design, develop, test, and evaluate integrated systems for managing industrial production processes including human work factors, quality control, invent
Apply engineering theory and principles to problems of industrial layout or manufacturing production, usually under the direction of engineering staff. Ma
Apply engineering theory and technical skills to support industrial engineering activities such as quality control, inventory control and material flow metho
Plan, implement, and coordinate safety programs, requiring application of engineering principles and technology, to prevent or correct unsafe environme
Design and analyze operational solutions for projects such as transportation optimization, network modeling, process and methods analysis, cost containr

Apply engineering theory and technical skills to support manufacturing engineering activities. Develop tools, implement designs and integrate machinery,
Design, develop, and take responsibility for the installation of ship machinery and related equipment including propulsion machines and power supply sys
Design, develop, and evaluate the operation of marine vessels, ship machinery, and related equipment, such as power supply and propulsion systems.

Evaluate materials and develop machinery and processes to manufacture materials for use in products that must meet specialized design and performance requirements.
Perform engineering duties in planning and designing tools, engines, machines, and other mechanically functioning equipment. Oversee installation, operation, and maintenance of such equipment.
Apply theory and principles of mechanical engineering to modify, develop, and test machinery and equipment under direction of engineering staff or physicist.
Apply engineering theory and technical skills to support mechanical engineering activities such as generation, transmission and use of mechanical and fluid power.
Apply knowledge of mechanical, electrical, and computer engineering theory and methods to the design of automation, intelligent systems, smart devices, and robotics.
Apply knowledge of electronic and mechanical engineering theory and methods, as well as specialized manufacturing technologies, to design and develop mechatronic systems.
Design, develop, and supervise the production of materials, devices, and systems of unique molecular or macromolecular composition, applying principles of polymer science.
Operate commercial-scale production equipment to produce, test, and modify materials, devices, and systems of molecular or macromolecular composition.
Implement production processes for nanoscale designs to produce and modify materials, devices, and systems of unique molecular or macromolecular composition.
Test the safety of structures, vehicles, or vessels using x-ray, ultrasound, fiber optic or related equipment.
Conduct research on nuclear engineering problems or apply principles and theory of nuclear science to problems concerned with release, control, and utilization of nuclear energy.
Operate equipment used for the release, control, and utilization of nuclear energy to assist scientists in laboratory and production activities.
Prepare, administer, and measure radioactive isotopes in therapeutic, diagnostic, and tracer studies utilizing a variety of radioisotope equipment. Prepare and maintain records of such studies.
Collect and test samples to monitor results of nuclear experiments and contamination of humans, facilities, and environment.
Assist scientists in both laboratory and production activities by performing technical tasks involving nuclear physics, primarily in operation, maintenance, and repair of equipment.
Devise methods to improve oil and gas well production and determine the need for new or modified tool designs. Oversee drilling and offer technical advice.
Apply knowledge of engineering and mathematical theory and methods to design technologies specializing in light information and light energy.
Develop and conduct tests to evaluate product safety levels and recommend measures to reduce or eliminate hazards.
Design and implement radio frequency identification device (RFID) systems used to track shipments or goods.
Take X-rays and CAT scans or administer nonradioactive materials into patient's blood stream for diagnostic purposes. Includes technologists who specialize in medical imaging.
Apply remote sensing technologies to assist scientists in areas such as natural resources, urban planning, and homeland security. May prepare flight plans and conduct data analysis.
Research, design, develop, and test robotic applications.
Build, install, test, and maintain robotic equipment or related automated production systems.
Develop, create, and modify general computer applications software or specialized utility programs. Analyze user needs and develop software solutions. Includes software engineers.
Research, design, develop, and test operating systems-level software, compilers, and network distribution software for medical, industrial, military, commercial, or government use.
Perform site-specific engineering analysis or evaluation of energy efficiency and solar projects involving residential, commercial, or industrial customers. Includes energy auditors.
Assist in operations, under the supervision of surgeons, registered nurses, or other surgical personnel. May help set up operating room, prepare and transport instruments, and assist in patient care.
Develop plans for surface transportation projects according to established engineering standards and state or federal construction policy. Prepare plans, estimates, and specifications.
Design and plan protocols for equipment and processes to produce products meeting internal and external purity, safety, and quality requirements.
Design or implement programs and strategies related to water resource issues such as supply, quality, and regulatory compliance issues.
Design or oversee projects involving provision of fresh water, disposal of wastewater and sewage, or prevention of flood-related damage. Prepare environmental impact statements.
Design underground or overhead wind farm collector systems and prepare and develop site specifications.
Apply knowledge of engineering technology and biological science to agricultural problems concerned with power and machinery, electrification, structural design, and irrigation.
Research, evaluate, and establish public policy concerning the origins of humans; their physical, social, linguistic, and cultural development; and their behavior.

Study the origin, development, and behavior of humans. May study the way of life, language, or physical characteristics of existing people in various parts
Conduct research to reconstruct record of past human life and culture from human remains, artifacts, architectural features, and structures recovered through
Teach courses in architecture and architectural design, such as architectural environmental design, interior architecture/design, and landscape architecture
Appraise, edit, and direct safekeeping of permanent records and historically valuable documents. Participate in research activities based on archival materials
Teach courses pertaining to the culture and development of an area (e.g., Latin America), an ethnic group, or any other group (e.g., women's studies, urban
Observe, research, and interpret celestial and astronomical phenomena to increase basic knowledge and apply such information to practical problems.
Investigate atmospheric phenomena and interpret meteorological data gathered by surface and air stations, satellites, and radar to prepare reports and forecasts
Teach courses in the physical sciences, except chemistry and physics.
Repair automobiles, trucks, buses, and other vehicles. Master mechanics repair virtually any part on the vehicle or specialize in the transmission system.
Diagnose, adjust, repair, or overhaul automotive vehicles.
Repair only one system or component on a vehicle, such as brakes, suspension, or radiator.
Study the chemical composition and physical principles of living cells and organisms, their electrical and mechanical energy, and related phenomena. May
Conduct research using bioinformatics theory and methods in areas such as pharmaceuticals, medical technology, biotechnology, computational biology,
Teach courses in biological sciences.
All biological scientists not listed separately.
Apply knowledge of engineering, biology, and biomechanical principles to the design, development, and evaluation of biological and health systems and products
Collect, analyze, and interpret geographic information provided by geodetic surveys, aerial photographs, and satellite data. Research, study, and prepare reports
Design chemical plant equipment and devise processes for manufacturing chemicals and products, such as gasoline, synthetic rubber, plastics, detergents
Conduct qualitative and quantitative chemical analyses or chemical experiments in laboratories for quality or process control or to develop new products
Teach courses pertaining to the chemical and physical properties and compositional changes of substances. Work may include instruction in the methods
Perform engineering duties in planning, designing, and overseeing construction and maintenance of building structures, and facilities, such as roads, railroads
Apply theory and principles of civil engineering in planning, designing, and overseeing construction and maintenance of structures and facilities under the
All community and social service specialists not listed separately.
Research, design, develop, and test computer or computer-related equipment for commercial, industrial, military, or scientific use. May supervise the manufacturing
All computer occupations not listed separately.
Prepare cost estimates for product manufacturing, construction projects, or services to aid management in bidding on or determining price of product or service
Teach courses in criminal justice, corrections, and law enforcement administration.
Administer affairs of museum and conduct research programs. Direct instructional, research, and public service activities of institution.
Plan and conduct food service or nutritional programs to assist in the promotion of health and control of disease. May supervise activities of a department
Teach courses in economics.
Teach courses pertaining to education, such as counseling, curriculum, guidance, instruction, teacher education, and teaching English as a second language
All education, training, and library workers not listed separately.
Apply electrical and electronic theory and related knowledge, usually under the direction of engineering staff, to design, build, repair, calibrate, and modify
Design, develop, test, or supervise the manufacturing and installation of electrical equipment, components, or systems for commercial, industrial, military

Apply electrical theory and related knowledge to test and modify developmental or operational electrical machinery and electrical control equipment and
Operate, test, and maintain unmanned, automated, servo-mechanical, or electromechanical equipment. May operate unmanned submarines, aircraft, or
Research, design, develop, and test electronic components and systems for commercial, industrial, military, or scientific use utilizing knowledge of electro
Lay out, build, test, troubleshoot, repair, and modify developmental and production electronic components, parts, equipment, and systems, such as comp
Assess injuries, administer emergency medical care, and extricate trapped individuals. Transport injured or sick persons to medical facilities.
All engineers not listed separately.
Plan, direct, or coordinate activities in such fields as architecture and engineering or research and development in these fields.
Teach courses pertaining to the application of physical laws and principles of engineering for the development of machines, materials, instruments, proce
Assess and quantify the benefits of environmental alternatives, such as use of renewable energy resources.
Design, plan, or perform engineering duties in the prevention, control, and remediation of environmental health hazards utilizing various engineering disc
Collaborate with field and biology staff to oversee the implementation of restoration projects and to develop new products. Process and synthesize comp
Performs laboratory and field tests to monitor the environment and investigate sources of pollution, including those that affect health. Under direction of
Teach courses in environmental science.
Research causes of fires, determine fire protection methods, and design or recommend materials or equipment such as structural components or fire-det
Manage forested lands for economic, recreational, and conservation purposes. May inventory the type, amount, and location of standing timber, apprais
Teach courses in environmental and conservation science.
Research and study the inheritance of traits at the molecular, organism or population level. May evaluate or treat patients with genetic disorders.
Study nature and use of areas of earth's surface, relating and interpreting interactions of physical and cultural phenomena. Conduct research on physical a
Teach courses in geography.
Study the composition, structure, and other physical aspects of the earth. May use geological, physics, and mathematics knowledge in exploration for oil,
Teach courses in health specialties, such as veterinary medicine, dentistry, pharmacy, therapy, laboratory technology, and public health.
Research, analyze, record, and interpret the past as recorded in sources, such as government and institutional records, newspapers and other periodicals,
Research the distribution, circulation, and physical properties of underground and surface waters; study the form and intensity of precipitation, its rate of
Study or investigate industrial production and natural ecosystems to achieve high production, sustainable resources, and environmental safety or protect
Design, develop, test, and evaluate integrated systems for managing industrial production processes including human work factors, quality control, invent
Apply engineering theory and principles to problems of industrial layout or manufacturing production, usually under the direction of engineering staff. Ma
Plan, implement, and coordinate safety programs, requiring application of engineering principles and technology, to prevent or correct unsafe environme
Teach courses in library science.
All life scientists not listed separately.
All life, physical, and social science technicians not listed separately.
Design and oversee construction and repair of marine craft and floating structures such as ships, barges, tugs, dredges, submarines, torpedoes, floats, and
Design, develop, and take responsibility for the installation of ship machinery and related equipment including propulsion machines and power supply sys
Design, develop, and evaluate the operation of marine vessels, ship machinery, and related equipment, such as power supply and propulsion systems.
Evaluate materials and develop machinery and processes to manufacture materials for use in products that must meet specialized design and performanc

Research and study the structures and chemical properties of various natural and manmade materials, including metals, alloys, rubber, ceramics, semiconductors, and polymers.
Teach courses pertaining to mathematical concepts, statistics, and actuarial science and to the application of original and standardized mathematical techniques.
All mathematical scientists not listed separately.
Apply standardized mathematical formulas, principles, and methodology to technological problems in engineering and physical sciences in relation to specific applications.
Conduct research in fundamental mathematics or in application of mathematical techniques to science, management, and other fields. Solve or direct solutions to mathematical problems.
Perform engineering duties in planning and designing tools, engines, machines, and other mechanically functioning equipment. Oversee installation, operation, and maintenance of such equipment.
Conduct research dealing with the understanding of human diseases and the improvement of human health. Engage in clinical investigation or other research.
Investigate the growth, structure, development, and other characteristics of microscopic organisms, such as bacteria, algae, or fungi. Includes medical microbiology.
Teach students in public or private schools in one or more subjects at the middle, intermediate, or junior high level, which falls between elementary and secondary education.
Research and study cellular molecules and organelles to understand cell function and organization.
Prepare specimens, such as fossils, skeletal parts, lace, and textiles, for museum collection and exhibits. May restore documents or install, arrange, and exhibit.
Plan, direct, or coordinate activities in such fields as life sciences, physical sciences, mathematics, statistics, and research and development in these fields.
Conduct research on nuclear engineering problems or apply principles and theory of nuclear science to problems concerned with release, control, and utilization of nuclear energy.
Compound and dispense medications following prescriptions issued by physicians, dentists, or other authorized medical practitioners.
Teach courses in philosophy, religion, and theology.
Teach courses pertaining to the laws of matter and energy. Includes both teachers primarily engaged in teaching and those who do a combination of both teaching and research.
All physical scientists not listed separately.
Conduct research into the phases of physical phenomena, develop theories and laws on the basis of observation and experiments, and devise methods to test theories.
Study the origin, development, and operation of political systems. Research a wide range of subjects, such as relations between the United States and foreign countries.
Develop and conduct tests to evaluate product safety levels and recommend measures to reduce or eliminate hazards.
Teach courses in psychology, such as child, clinical, and developmental psychology, and psychological counseling.
Conduct tests to determine quality of raw materials, bulk intermediate and finished products. May conduct stability sample tests.
Apply remote sensing principles and methods to analyze data and solve problems in areas such as natural resource management, urban planning, and hazardous waste management.
Instruct students in secondary public or private schools in one or more subjects at the secondary level, such as English, mathematics, or social studies. May also teach in postsecondary schools.
Teach courses in social work.
Develop, create, and modify general computer applications software or specialized utility programs. Analyze user needs and develop software solutions. Includes systems analysis.
Research, design, develop, and test operating systems-level software, compilers, and network distribution software for medical, industrial, military, commercial, and government use.
Engage in the development of mathematical theory or apply statistical theory and methods to collect, organize, interpret, and summarize numerical data.
Teach or instruct vocational or occupational subjects at the postsecondary level (but at less than the baccalaureate) to students who have graduated or left high school.
Study the origins, behavior, diseases, genetics, and life processes of animals and wildlife. May specialize in wildlife research and management, including the study of behavior.
Perform a variety of engineering work in designing, constructing, and testing aircraft, missiles, and spacecraft. May conduct basic and applied research to improve aircraft, missiles, and spacecraft.
Operate, install, calibrate, and maintain integrated computer/communications systems consoles, simulators, and other data acquisition, test, and measurement equipment.
Diagnose, adjust, repair, or overhaul aircraft engines and assemblies, such as hydraulic and pneumatic systems.
Repair and refinish automotive vehicle bodies and straighten vehicle frames.

Replace or repair broken windshields and window glass in motor vehicles.
Repair automobiles, trucks, buses, and other vehicles. Master mechanics repair virtually any part on the vehicle or specialize in the transmission system.
Diagnose, adjust, repair, or overhaul automotive vehicles.
Repair only one system or component on a vehicle, such as brakes, suspension, or radiator.
Install, inspect, test, adjust, or repair avionics equipment, such as radar, radio, navigation, and missile control systems in aircraft or space vehicles.
Repair and service bicycles.
Diagnose, adjust, repair, or overhaul trucks, buses, and all types of diesel engines. Includes mechanics working primarily with automobile diesel engines.
Wash or otherwise clean vehicles, machinery, and other equipment. Use such materials as water, cleaning agents, brushes, cloths, and hoses.
Repair, maintain, or install electric motors, wiring, or switches.
Apply electrical and electronic theory and related knowledge, usually under the direction of engineering staff, to design, build, repair, calibrate, and modify electrical equipment.
Install, adjust, or maintain mobile electronics communication equipment, including sound, sonar, security, navigation, and surveillance systems on trains, ships, and aircraft.
Repair, test, adjust, or install electronic equipment, such as industrial controls, transmitters, and antennas.
Apply electrical theory and related knowledge to test and modify developmental or operational electrical machinery and electrical control equipment and systems.
Install, maintain, and repair electrical wiring, equipment, and fixtures. Ensure that work is in accordance with relevant codes. May install or service street lighting.
Install, diagnose, or repair communications, sound, security, or navigation equipment in motor vehicles.
Apply engineering theory and principles to problems of industrial layout or manufacturing production, usually under the direction of engineering staff. May design, build, or modify machinery.
Repair, install, adjust, or maintain industrial production and processing machinery or refinery and pipeline distribution systems.
All mechanical, installation, and repair workers and helpers not listed separately.
Perform work involving the skills of two or more maintenance or craft occupations to keep machines, mechanical equipment, or the structure of an establishment in good working order.
Lubricate machinery, change parts, or perform other routine machinery maintenance.
Repairs and adjusts electrical and mechanical equipment of gasoline or diesel powered inboard or inboard-outboard boat engines.
Diagnose, adjust, repair, or overhaul motorcycles, scooters, mopeds, dirt bikes, or similar motorized vehicles.
Diagnose, adjust, repair, or overhaul small engines used to power lawn mowers, chain saws, and related equipment.
Operate or tend painting machines to paint surfaces of transportation equipment, such as automobiles, buses, trucks, trains, boats, and airplanes.
Paint, coat, or decorate articles, such as furniture, glass, plateware, pottery, jewelry, cakes, toys, books, or leather.
Diagnose, adjust, repair, or overhaul railroad rolling stock, mine cars, or mass transit rail cars.
Lay, repair, and maintain track for standard or narrow-gauge railroad equipment used in regular railroad service or in plant yards, quarries, sand and gravel pits, and other areas.
Install and repair industrial and commercial refrigerating systems.
Repair and replace tires.
Design, plan, or perform engineering duties in the prevention, control, and remediation of environmental health hazards utilizing various engineering disciplines.
Apply theory and principles of environmental engineering to modify, test, and operate equipment and devices used in the prevention, control, and remediation of environmental health hazards.
Performs laboratory and field tests to monitor the environment and investigate sources of pollution, including those that affect health. Under direction of supervisor.
Conduct research or perform investigation for the purpose of identifying, abating, or eliminating sources of pollutants or hazards that affect either the environment or human health.
Plan, implement, and coordinate safety programs, requiring application of engineering principles and technology, to prevent or correct unsafe environmental conditions.

Plan, direct, or coordinate supportive services of an organization, such as recordkeeping, mail distribution, telephone operator/receptionist, and other office functions.
Teach courses pertaining to education, such as counseling, curriculum, guidance, instruction, teacher education, and teaching English as a second language.
Analyze product delivery or supply chain processes to identify or recommend changes. May manage route activity including invoicing, electronic bills, and other administrative functions.
Design and analyze operational solutions for projects such as transportation optimization, network modeling, process and methods analysis, cost containment, and other operational activities.
Plan, direct, or coordinate purchasing, warehousing, distribution, forecasting, customer service, or planning services. Manage logistics personnel and logistics activities.
Analyze and coordinate the logistical functions of a firm or organization. Responsible for the entire life cycle of a product, including acquisition, distribution, and disposal.
All managers not listed separately.
Plan, direct, and coordinate the storage and distribution operations within an organization or the activities of organizations that are engaged in storing and distributing goods.
Plan, direct, and coordinate the transportation operations within an organization or the activities of organizations that provide transportation services.
Plan, direct, or coordinate transportation, storage, or distribution activities in accordance with governmental policies and regulations.
Plan, direct, or coordinate supportive services of an organization, such as recordkeeping, mail distribution, telephone operator/receptionist, and other office functions.
Plan and direct advertising policies and programs or produce collateral materials, such as posters, contests, coupons, or give-aways, to create extra interest in a product or service.
Expedite and route movement of incoming and outgoing cargo and freight shipments in airline, train, and trucking terminals, and shipping docks. Take orders and coordinate shipments.
Interact with customers to provide information in response to inquiries about products and services and to handle and resolve complaints.
Directly supervise and coordinate activities of sales workers other than retail sales workers. May perform duties, such as budgeting, accounting, and personnel management.
Supervise and coordinate the activities of clerical and administrative support workers.
Research market conditions in local, regional, or national areas, or gather information to determine potential sales of a product or service, or create a marketing plan.
Determine the demand for products and services offered by a firm and its competitors and identify potential customers. Develop pricing strategies with the sales manager.
Sell spare and replacement parts and equipment in repair shop or parts store.
Direct the actual distribution or movement of a product or service to the customer. Coordinate sales distribution by establishing sales territories, quotas, and sales objectives.
All services sales representatives not listed separately.
Service automobiles, buses, trucks, boats, and other automotive or marine vehicles with fuel, lubricants, and accessories. Collect payment for services and perform other duties.
Control air traffic on and within vicinity of airport and movement of air traffic between altitude sectors and control centers according to established procedures.
Direct ground crew in the loading, unloading, securing, and staging of aircraft cargo or baggage. Determine the quantity and orientation of cargo and coordinate with flight crew.
Ensure the safe takeoff and landing of commercial and military aircraft. Duties include coordination between air-traffic control and maintenance personnel.
Pilot and navigate the flight of multi-engine aircraft in regularly scheduled service for the transport of passengers and cargo. Requires Federal Air Transport Pilot Certificate.
Drive ambulance or assist ambulance driver in transporting sick, injured, or convalescent persons. Assist in lifting patients.
Operate and tend bridges, canal locks, and lighthouses to permit marine passage on inland waterways, near shores, and at danger points in waterway passages.
Transport students or special clients, such as the elderly or persons with disabilities. Ensure adherence to safety rules. May assist passengers in boarding or disembarking.
Drive bus or motor coach, including regular route operations, charters, and private carriage. May assist passengers with baggage. May collect fares or tickets.
Command or supervise operations of ships and water vessels, such as tugboats and ferryboats, that travel into and out of harbors, estuaries, straits, and other waterways.
Work below surface of water, using scuba gear to inspect, repair, remove, or install equipment and structures. May use a variety of power and hand tools.
Pilot and navigate the flight of small fixed or rotary winged aircraft, primarily for the transport of cargo and passengers. Requires Commercial Rating.
Schedule and dispatch workers, work crews, equipment, or service vehicles for conveyance of materials, freight, or passengers, or for normal installation, maintenance, or repair.

Directly supervise and coordinate activities of transportation and material-moving machine and vehicle operators and helpers.
Provide personal services to ensure the safety and comfort of airline passengers during flight. Greet passengers, verify tickets, explain use of safety equipment.
Operate industrial trucks or tractors equipped to move materials around a warehouse, storage yard, factory, construction site, or similar location.
Drive electric, diesel-electric, steam, or gas-turbine-electric locomotives to transport passengers or freight. Interpret train orders, electronic or manual signals.
Monitor locomotive instruments and watch for dragging equipment, obstacles on rights-of-way, and train signals during run. Watch for and relay traffic signals.
