Student & Teacher Collaborative: Summary of Performance Student Name: Kathy Graduate

to me, are hands-on, and I can tell you instead of write it.	
Career/Vocational/Employment: I have worked at a nursing home, daycare kitchen, and Wal-Mart and liked that. I do not like cleaning so I didn't like to work as a custodian. Some of these were paid. I now work 12 hours per week at the nursing home.	I use a job coach all the time and my teacher helps by checking in with my boss. My teacher thinks we need to add some visual schedules and picture tasks.
General Ability and Problem-Solving: IQ test done in 2013: WAIS-III Full- Scale IQ 66. This says I'm below average to my peers but I think I am smart. New places are hard for me and I don't always make safe decisions. I have a guardian to help me with money, doctors and school. She is my mom too.	Practice in new places. My teachers says it helps me when I can ask lots of questions about places I've never been before.
Social Skills and Behavior: I like people. My teacher said I do better with adults and am sometimes not mature with friends more if they are boys. I'm working on better behavior with boys so I can be safe in the community.	I don't like needing a chaperone and am working to be more responsible by going on small outings by myself to the library.
Independent Living: I live with my parents but the basement is like an apartment. I do my laundry and clean. I get SSI to help pay the bills plus my paycheck. Mom helps me with food to eat healthy and to shop, cook, get up for work, and with money.	Someone signs checks with me and helps me do things at home. I have a lot of reminders by people to do things.
Environmental Access and Mobility: I try the bus with adults. My teacher says safety is an issue there because I talk to everyone and don't understand who is safe or not. They worry about me mostly with men.	I can ride in cabs alone. Someone helps me set them up. I still need people on the bus with me but I do know the schedule now.
Self-Determination: I can tell you what I like but not really what I need and am good at. I love animals.	My teacher uses cards with pictures to help me explain what I need to people when I don't know them. She says I do a great job with this!
Communication: I love to talk. My teacher says I need to work on not interrupting and at work they help me with that by reminding me to get to work. If I start talking about things that are inappropriate they tell me what to work on.	People to tell me when I'm inappropriate. My teacher calls them natural supports. I call them co-workers and friends.
	My coach sets the timers but I think I can do it someday. My teacher also thinks that

Student & Teacher Collaborative: Summary of Performance

Student Name: Kathy Graduate

Time Management: I can tell time and use a timer at work for breaks and changes in my job. Keeps me focused or I get distracted. I can only socialize on breaks and people at work help me with that. What can I say? I like to talk!	if I forget my medication I have a harder time with this. She says it's a strength that I am "fine-tuning".

Summary of Academic Achievement – how you score on testing. (☑ that apply)	
English/Language Arts Reading Grade 1 l like to read about cats and dogs on the internet. If three are a lot of words for me to read it is hard for me to remember what I read. Writing I write emails and letters in full sentences. I know my address and phone number and can sign my name. My teacher says I need help to decode, with fluency, and accuracy to read things above 2nd grade. Speaking & Listening Language	Math (current score and test used) Number & Quantity I add, subtract, multiply and divide using a calculator. Story problems are hard. Algebra Geometry Statistics & Probability Functions
Accommodations/Modifications, Services, and Assistive Technology What assistive technology works best for you? Explain. What accommodations and/or modifications do you use? Explain. (can include what was tried and hasn't worked too; if relevant)	
English/Language Arts I need help with job applications. I don't like writing so I need help with that. I use Kurzweil 3000 to have tests and directions read to me and I use Dragon to send out emails and write. I need someone to help me give clear details about myself.	Math Help with my checkbook and deciding how to spend my money by my mom. Calculator is great for me! I use it to come up with how much I can spend at the grocery store.
Did you receive accommodations on standardized tests (Statewide Testing, A	NCT, MAPS, etc.)? 🛛 Yes 🗌 No
If yes, describe the accommodation provided: more time, different room, teacher read it to me and wrote down my answers	
Next Steps and Contacts	

What are your needs as you leave high school and begin further learning	g, working and living? (to include things like OT/PT/Speech)
Action Steps	Contact Information
Find 2 nd job.	DVR – Ms. Ann Waters 098.765.4321
	Job Center – Mr. Ted Drake 098.754.1245
	Benefits Specialist – Connie Barker 000.111.2222
	Managed Care Organization Team – Nurse Nancy and Social Worker
	Steve, 999.111.2222

Look at apartments	Independent Living Center – Ms. Judy Ecker 333.222.7845
Take class on animals at technical college	Technical College – Mr. Tom Dooley 111.222.3456

IEP Team Input and Contact Information (may attach separate documentation for any additional information thought to be required for postsecondary success)	
Family (contact information)	Teacher/School (contact information)
Mom (who is also guardian)	
I'd love to see Kathy more involved in her community and live on her own. Another job would be great for her too as she gets bored on days that she is not working. We are working with her social worker to set up supports so she can join other programs. The YMCA is great on days off but not for full- days. Kathy would like to join a book club and maybe volunteer with animals.	Kathy is a fun young lady to be around. With the right supports, she has great success! I see her working more hours or adding a part-time job. She would love to be involved more in her community and would love to volunteer and hang out with friends. To do this, I recommend someone assists in watching her interaction with people she doesn't know until she demonstrates better safety with this.

This was a collaborative effort of both the special education teacher and student. We verify that both parties had equal input into this
